

Slider

- ✓ Frame: Extruded aluminium
- ✓ Net: fibreglass / PVC (standard)
- ✓ Width: up to 150 cm
- ✓ Height: up to 250 cm
- ✓ Brush seals on all sides
- ✓ Specialised nets available
- ✓ Profiles painted in all RAL colours

The Slider sliding mosquito net is installed on runners that can be placed at floor height without a threshold. This feature makes it a perfect addition to threshold-free sliding door systems.

Wall openings as wide as 400 cm can be covered when two panels are used. The rigidity of such large structures is guaranteed by the aluminium-covered inner corner of the frame. Brush gaskets around the perimeter help to ensure tightness.

A distinguishing feature of the mosquito net is the use of a smooth aesthetic profile, which is rounded on the outside. It can be powder-coated in all RAL colours.
